

Statewise Fatal Crash Patterns By Day Type And Time Of Day

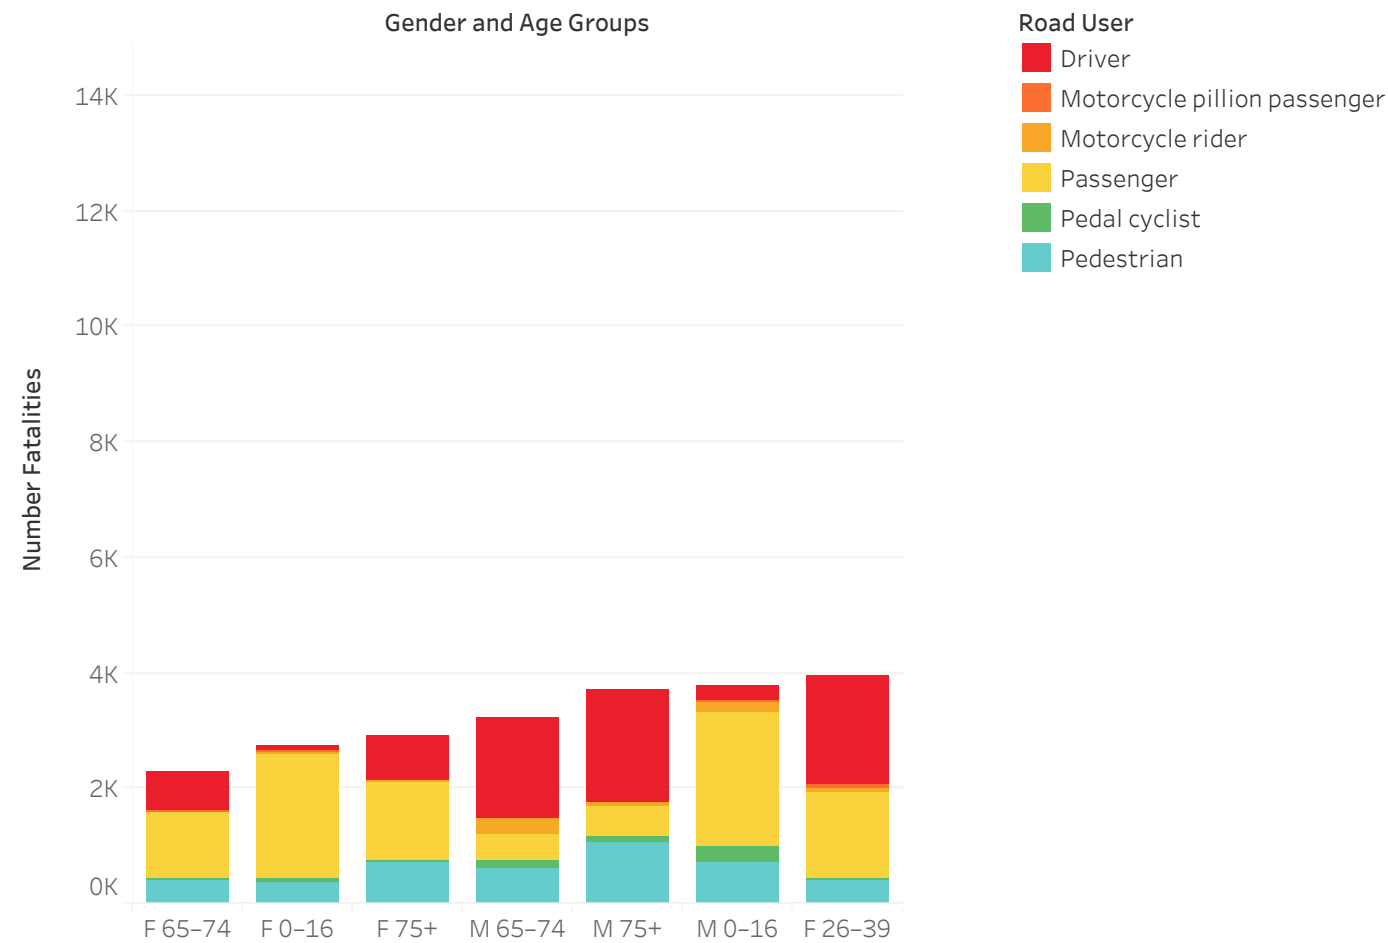

Sum of Crash Count for each State broken down by Time Of Day.
Color shows details about Day Type. The view is filtered on Time Of Day, which keeps Day and Night.

Number Of Fatalities by Speed Limit, Road Type, and Time of Day

Time..	Roa..	Speed Category			Number Fatalities
		High	Low	Medium	
Day	Acc..	71	19	25	
	Art..	871	108	883	
	Bus..		1

	Bus..	1	1	1	
	Coll..	61	129	205	
	Loc..	281	401	460	
	Nat..	1,019	44	583	
	Ped..		2	2	
	Sub..	379	49	455	

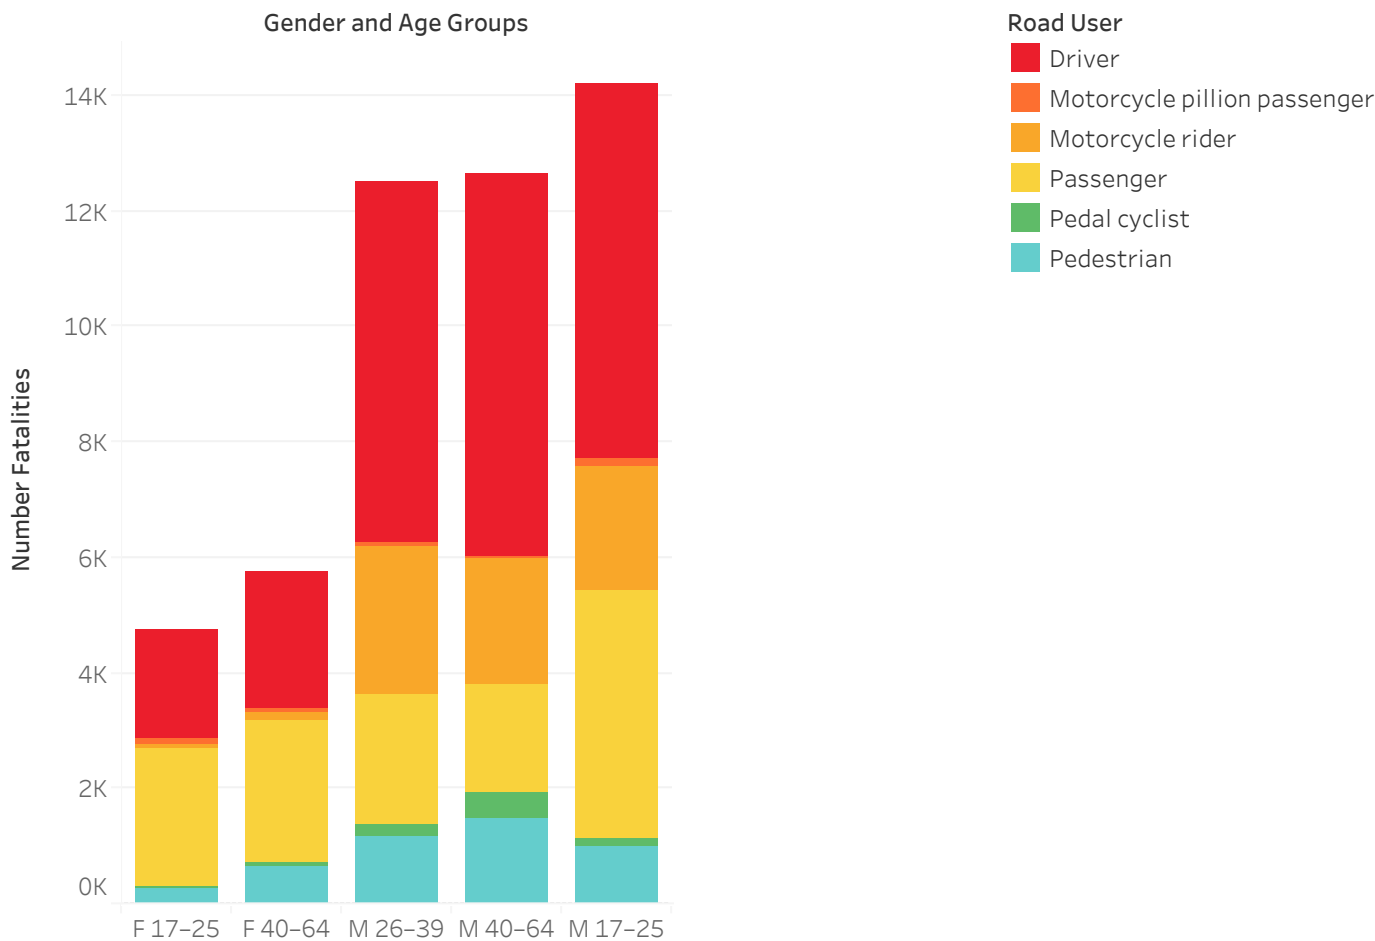

Sum of Number Fatalities broken down by Speed Category vs. Time Of Day and Road Type. Color shows sum of Number Fatalities. The marks are labeled by sum of Number Fatalities. The view is filtered on Speed Category and Road Type. The Speed Category filter keeps High, Low and Medium. The Road Type filter keeps 8 members.

Fatalities Across Road Users By Gender and Age Groups

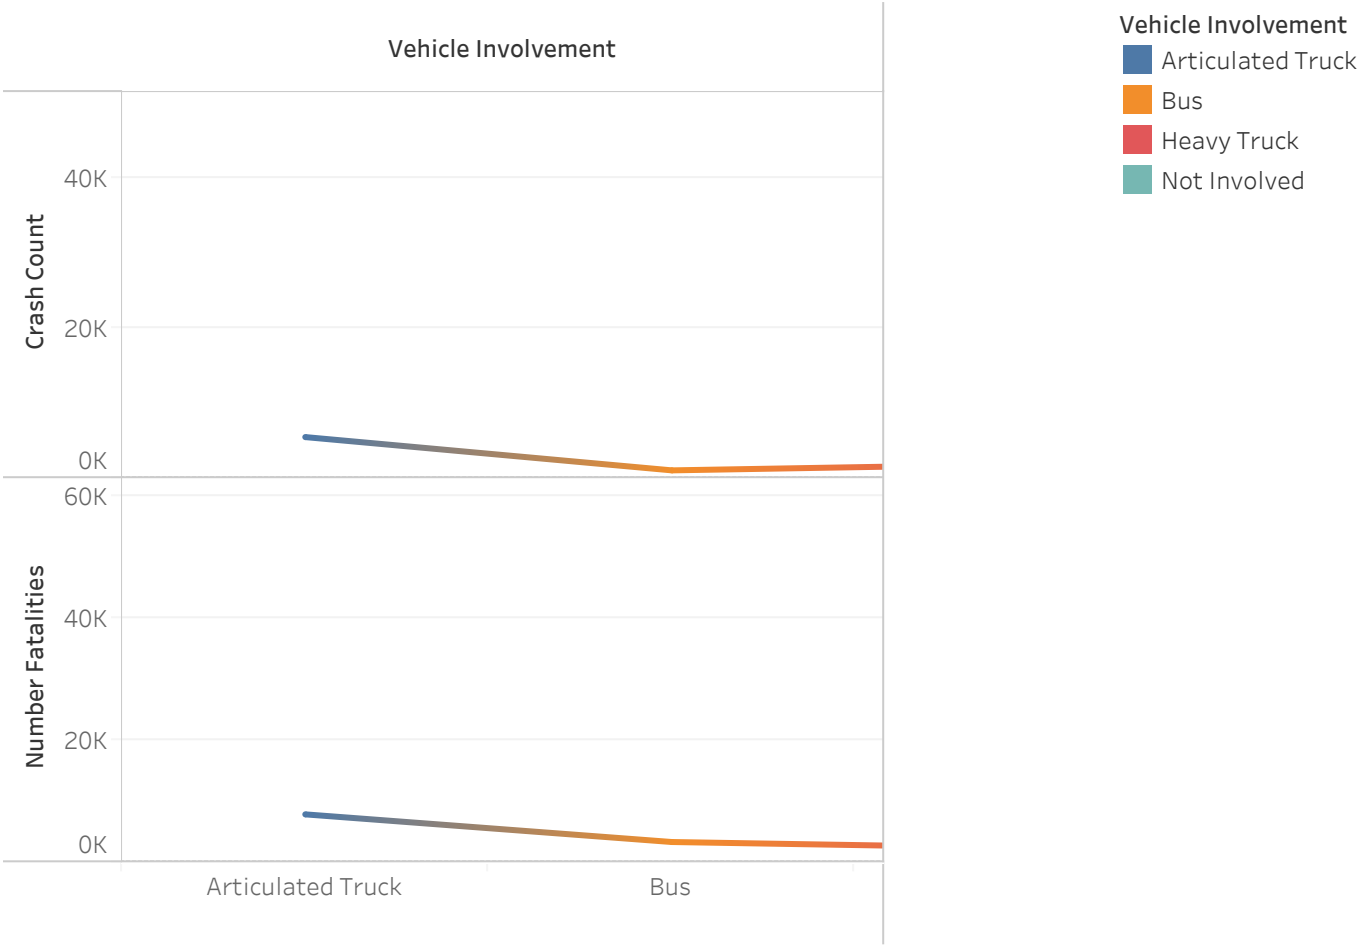

Sum of Number Fatalities for each Gender and Age Groups. Color shows details about Road User. Details are shown for Gender. The view is filtered on Gender and Age Groups and Road User. The Gender and Age Groups filter keeps 20 members. The Road User filter keeps 6 members.

Fatalities Across Road Users By Gender and Age Groups

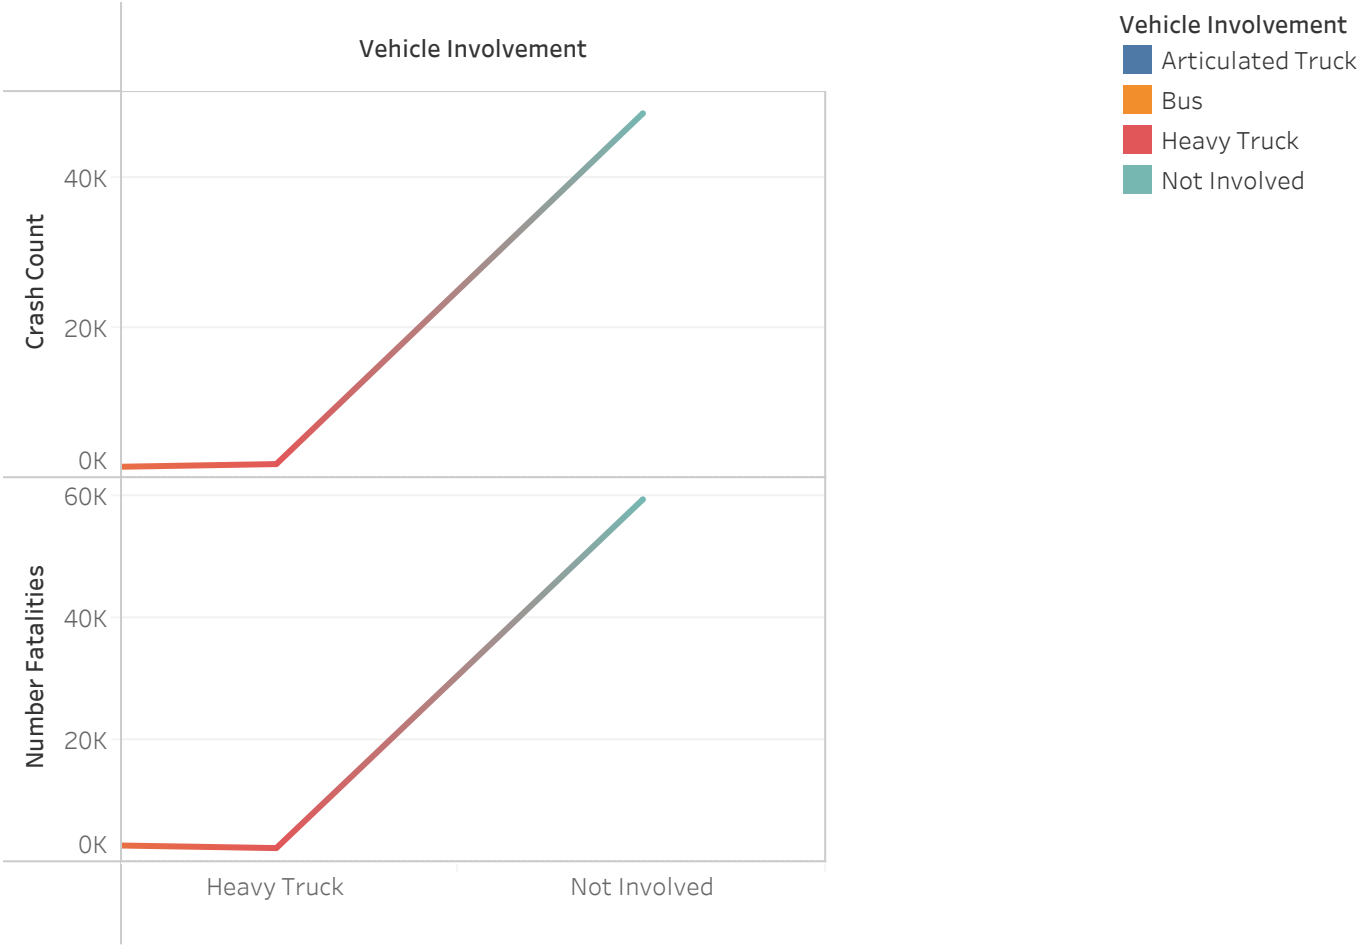

Sum of Number Fatalities for each Gender and Age Groups. Color shows details about Road User. Details are shown for Gender. The view is filtered on Gender and Age Groups and Road User. The Gender and Age Groups filter keeps 20 members. The Road User filter keeps 6 members.

Vehicle Types Involvement Influence on Number And Severity on Fatal Crashes

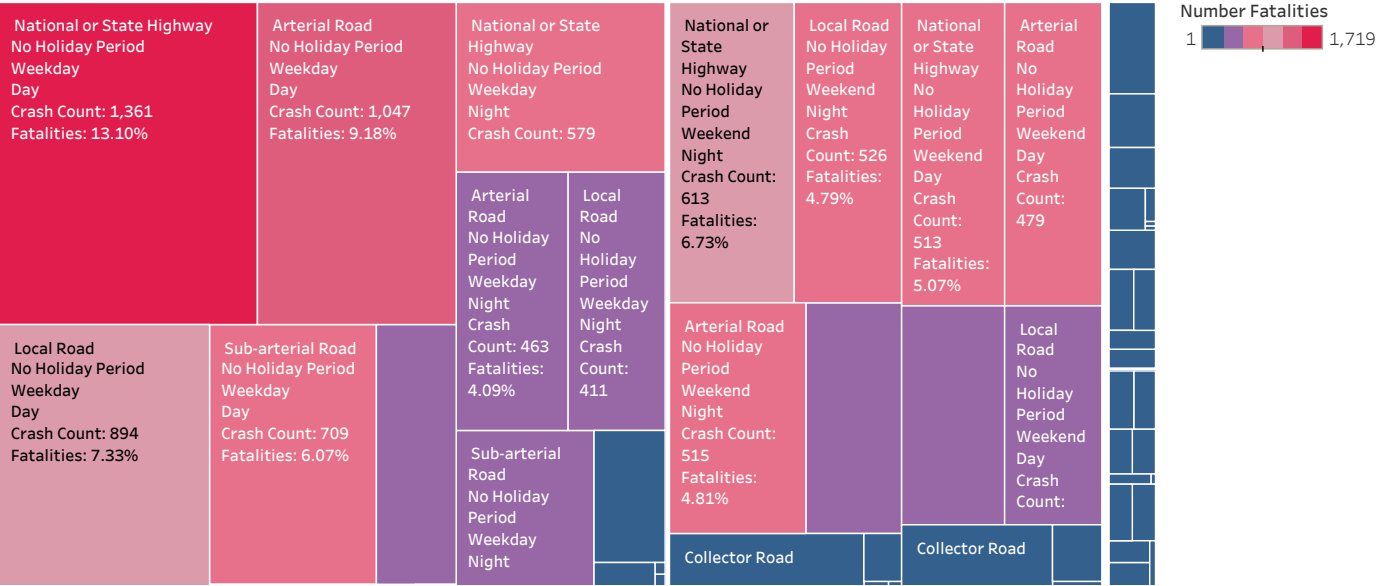

The trends of sum of Crash Count and sum of Number Fatalities for Vehicle Involvement. Color shows details about Vehicle Involvement.

Vehicle Types Involvement Influence on Number And Severity on Fatal Crashes

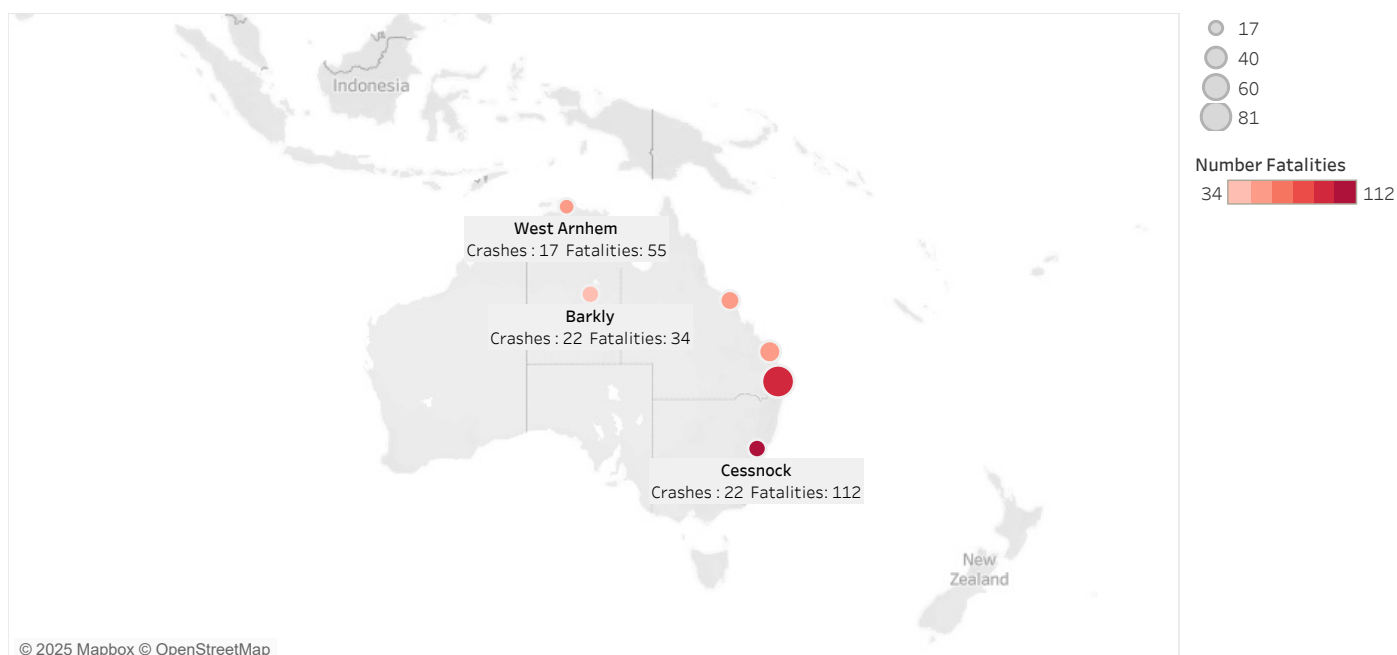

The trends of sum of Crash Count and sum of Number Fatalities for Vehicle Involvement. Color shows details about Vehicle Involvement.

Fatality Rates And Crash Patterns
Across Road Types, Times of Day,
and Holiday Periods

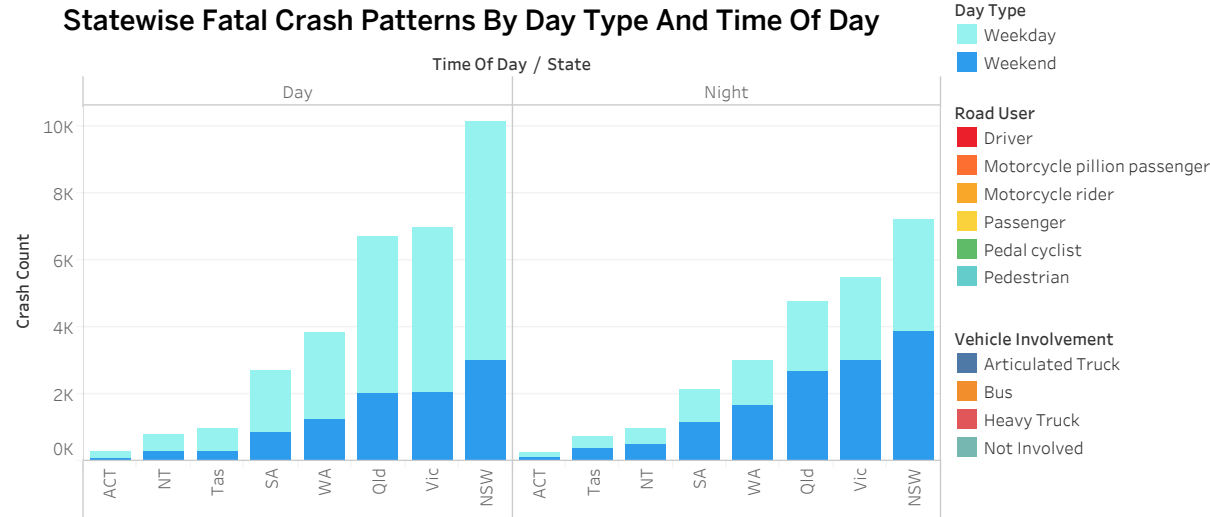

Holiday Label, Day Type, Time Of Day, Road Type, sum of Crash Count and % of Total Number Fatalities. Color shows sum of Number Fatalities. Size shows sum of Crash Count. The marks are labeled by Holiday Label, Day Type, Time Of Day, Road Type, sum of Crash Count and % of Total Number Fatalities. The view is filtered on Road Type and Exclusions (Day Type,Holiday Label,Road Type,Time Of Day). The Road Type filter keeps 8 members. The Exclusions (Day Type,Holiday Label,Road Type,Time Of Day) filter keeps 66 members.

Dangerous LGA Zones By Combinations Of Crash Type,Speed And Remoteness

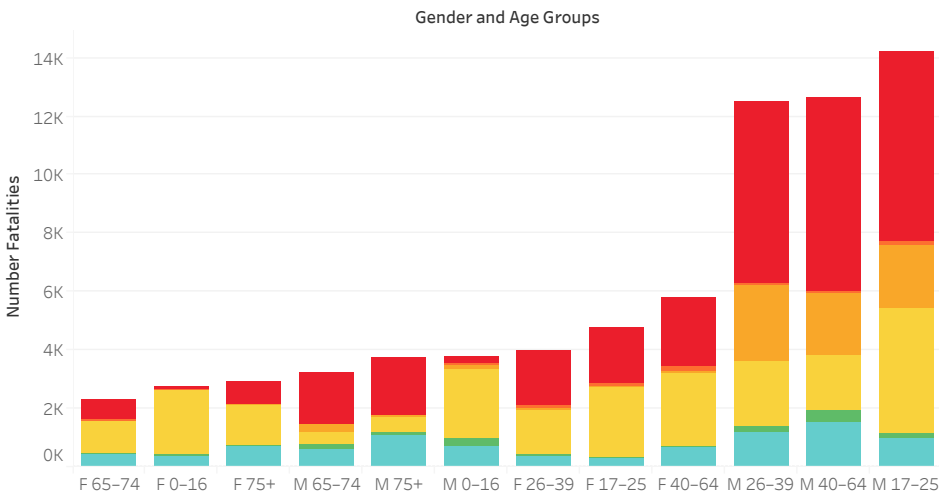

Map based on Longitude (generated) and Latitude (generated). Color shows sum of Number Fatalities. Size shows sum of Crash Count. The marks are labeled by Lga Name21, sum of Crash Count and sum of Number Fatalities. Details are shown for various dimensions. The view is filtered on Longitude (generated), Lga Name21, Speed Category, Crash Type, Remoteness, Inclusions (Crash Type,Lga Name21,Remoteness,Speed Category) and Exclusions (Crash Type,Lga Name21,Remoteness,Speed Category). The Longitude (generated) filter keeps non-Null values only. The Lga Name21 filter keeps 566 members. The Speed Category filter keeps High and Medium. The Crash Type filter keeps Multiple and Single. The Remoteness filter keeps Inner Regional Australia, Major Cities of Australia, Outer Regional Australia, Remote Australia and Very Remote Australia. The Inclusions (Crash Type,Lga Name21,Remoteness,Speed Category) filter keeps 10 members. The Exclusions (Crash Type,Lga Name21,Remoteness,Speed Category) filter keeps 2,395 members.
